FITNESS WHEELCHAIR for people who like to work-out

To be measured:

- Temperature
- Speed/Acceleration
- Location
- Heart-rate
- Force-meter

To be actuated:

- Heating
- Motor on/off or Resistance
- Speaker
- LED's
- Phone output (or input)

Exercising

Interval training
Constant-speed training

Monitoring

Heart rate (before and after; maybe during)
Body temperature (")
Training statistics (speed, resistance)

Fun extra's

Planning a specific route to take
Motivational 'coaching' during training
Weight
Sharing different outputs on social media

"Being bounded does not have to be limiting"
